Bill To: SalesUp, Inc.

Product	Price
Development/Maintenance Fees (6hrs)	\$250.00
API Usage Fees	\$28.38
Total	\$278.38

Breakdown of Services:

- Development/Maintenance Fees - In the context of maintaining software code, may include:
 - Bug Fixes: Rectifying software errors post-deployment.
 - Software Updates: Adapting software to changes in system environment.
 - Performance Optimization: Enhancing parts of software for efficiency.
 - Code Refactoring: Improving code structure for readability and simpler future Development/Maintenance.
 - Technical Debt Management: Addressing suboptimal solutions used for meeting deadlines or constraints.
 - Documentation: Creating and updating written explanations of the code.
 - Compliance Changes: Modifying software to remain in line with regulatory standards.These costs are often incorporated into overall project expenses or separate Development/Maintenance contracts.
- Application Programming Interface (API) Usage Fees - API usage fees for a freelance software developer generally relate to costs incurred when using third-party services which offer their functions via APIs. They may include:
 - Subscription Fees: Recurring costs for accessing premium API features.
 - Per-Call Charges: Costs applied each time the API is used.
 - Data Volume Fees: Charges based on the amount of data transferred.
 - Tiered Pricing: Higher costs for increased usage levels or advanced features.
 - Overage Fees: Additional charges if usage exceeds agreed limits.
 - Special Feature Costs: Fees for accessing certain exclusive API functions.

Conditions: Total due in 30 days. Overdue accounts subject to a service charge of \$50 per week.

Thank you for your business!
